

Data Processing Digest

3848 FREDONIA DRIVE, • LOS ANGELES, CALIFORNIA • 90068

PUBLISHED EACH MONTH SINCE 1955

VOLUME 36, 1990

1990 ANNUAL SUPPLEMENT

INDEX AND REFERENCE LIST

Title Index	1	Subject Index	7
Author Index	5	Periodical List	11

INDEX

This is the annual index for DATA PROCESSING DIGEST for the year 1990, Vol. 36, Nos. 1-12. The index is divided into three sections: the list of titles as they appeared in the Digest, a list of authors, and a subject index. All articles have at least one subject citation.

Italicized titles are books, periodicals or reports. The numbers following the entries indicate issue and pages in which the item is found. The number preceding the hyphen is the issue; the numbers following the hyphen are the pages.

TITLE

AD/Cycle, 3-3
Adopting Object-Oriented Technologies: An IS Manager's Checklist, 11-4
Advantage: EDI, 6-22, 7-20
Affecting the Software Development Process, 10-13
AI & Expert Systems Myths, Legends and Facts, 5-29
The AIDS Information Diskette—A New and Nasty Trojan Horse, 3-21
Air Canada To Soar On Knowledge-Based Scheduling, 4-13
AIX and SAA, 3-4
Application Reviews Of End-User Spreadsheet Design, 1-18
Are Fax Machines Really Delivering As Promised?, 6-19
Are You Locked In Your Lotus Position?, 4-23
Are You Ready For Cooperative Processing?, 6-12
Are You Ready For a Repository?, 5-10
The AS/400 and the LAN, 7-4
Assuring the Quality Of Externally Developed Code, 12-8
Asynchronous Communication Servers, 3-11
AT&T's UNMA/OSI Solution, 5-26
Audit Concerns In Electronic Data Interchange, 5-22
Auditing a Session Manager, 11-23
Auditors Should Be Aware Of EDI's Legal Issues, 5-23
Author Of AIDS Disk Arrested, 6-4
Back To the Future, 4-29
Backups: Can You Ever Be Too Safe?, 7-16
Banking On the AS/400, 4-12

BASISplus Premiered At INFO '89 Conference, 1-22
The Battle Of the Network Architectures, 1-24
The Battle Over Internetwork Management Standards, 3-10
A Battle ROI-al, 9-2
Becoming an IS Mentor, 2-14
Beyond Customer Satisfaction, 5-1
Beyond Hypertext Hype, 1-21
Beyond Relational Databases, 8-4
Biometrics: The Ultimate In Access Control?, 12-17
Breaking Free From Backup Tangles, 9-18
Bridging the Gap Between Users and MIS, 8-9
Building Effective Project Teams, 8-11
Building Large, Dynamic Hypertexts: How Do We Link Intelligently?, 3-22
Building Market Information Systems, 4-27
Building More Flexible Systems, 1-6
Building Testable Software: Integrating Test Awareness Into Software Development, 10-12
Buildings With Smarts, 11-26
Business Telecommunications, 6-27

A Call For Distributed Computing, 3-12
Callpath Offers Voice and Data Integrated Applications Solutions, 10-16
Can Managers Trust Statistics?, 2-15
The CASE/DBMS Connection, 10-15
CASE: Enhancing Capabilities and Expanding Horizons, 2-9
CASE For the AS/400, 1-12

A Case For Early Auditor Involvement In the CASE System Development Life Cycle, 8-18
CASE For Expert Systems, 4-34
The Case For Formal Methods In Standards, 12-9
CASE: Guidelines For Success, 1-11
CASE: An Industry In Flux (Part 2), 1-10
The CASE Of the Missing Links: The Current State Of CASE Standards Efforts, 11-18
CASE: A Peek At Commercial Developers Uncovers Some Clues To the Mystery, 6-18
Certifying Computer Competence, 11-24
The Challenge Of Integration, 9-14
The Changing Of the Guard In Software Quality, 4-6
Changing Responsibilities For Audit and Security Information Resources, 7-9
The Changing Role Of Support Providers In the Datacenter, 12-11
Charter Of Responsibilities For a Contingency Planning and Disaster Recovery Function, 6-3
Choosing the Right Network Operating System, 1-25
A Clear View For Windows, 4-12
Clearing the Dusty Decks, 6-11
Client-Server Computing For the Sophisticated LAN, 2-7
Cobol—The Next Stage, 10-15
Commercial Benefits Of OSI, 9-15
The Coming Of ISDN, 3-10
Common Data Bases, an Idea Whose Time Is Coming, 9-23

2 DATA PROCESSING DIGEST 12/90

- Compaq Creates a New Class Of Personal Computer, 4-32
- Comparison Of uniVerse & Pick/UNIX, 9-12
- A Computer-Aided Approach To Manufacturing Quality, 5-3
- Computer Audit, Control, and Security*, 7-26

REFERENCES

The staff of Data Processing Digest regularly monitors an average of 150 computer, trade, educational, scientific, and business management periodicals for appropriate articles to digest each month. The list of periodicals varies widely from year to year, and even from month to month, as new periodicals appear, and others cease publication or change their editorial direction. Every June issue and the year-end annual supplement include all the publishers' addresses for your convenience. During other

months of the year, only the periodicals referenced in that issue are given. All addresses which do not include a country are in the U.S.

Please request copies of originals from the publisher of the periodical. Do not write to *Data Processing Digest*, as we do not copy or reprint, and your request will be delayed. Books should be ordered from their publishers or from a local technical book store.

Access (no longer published): United Communications Group, 4550 Montgomery Ave., Suite 700N, Bethesda, MD 20814
